

All 8 GPUs; another process remained on GPU 3

GPC Clock Frequency [MHz]

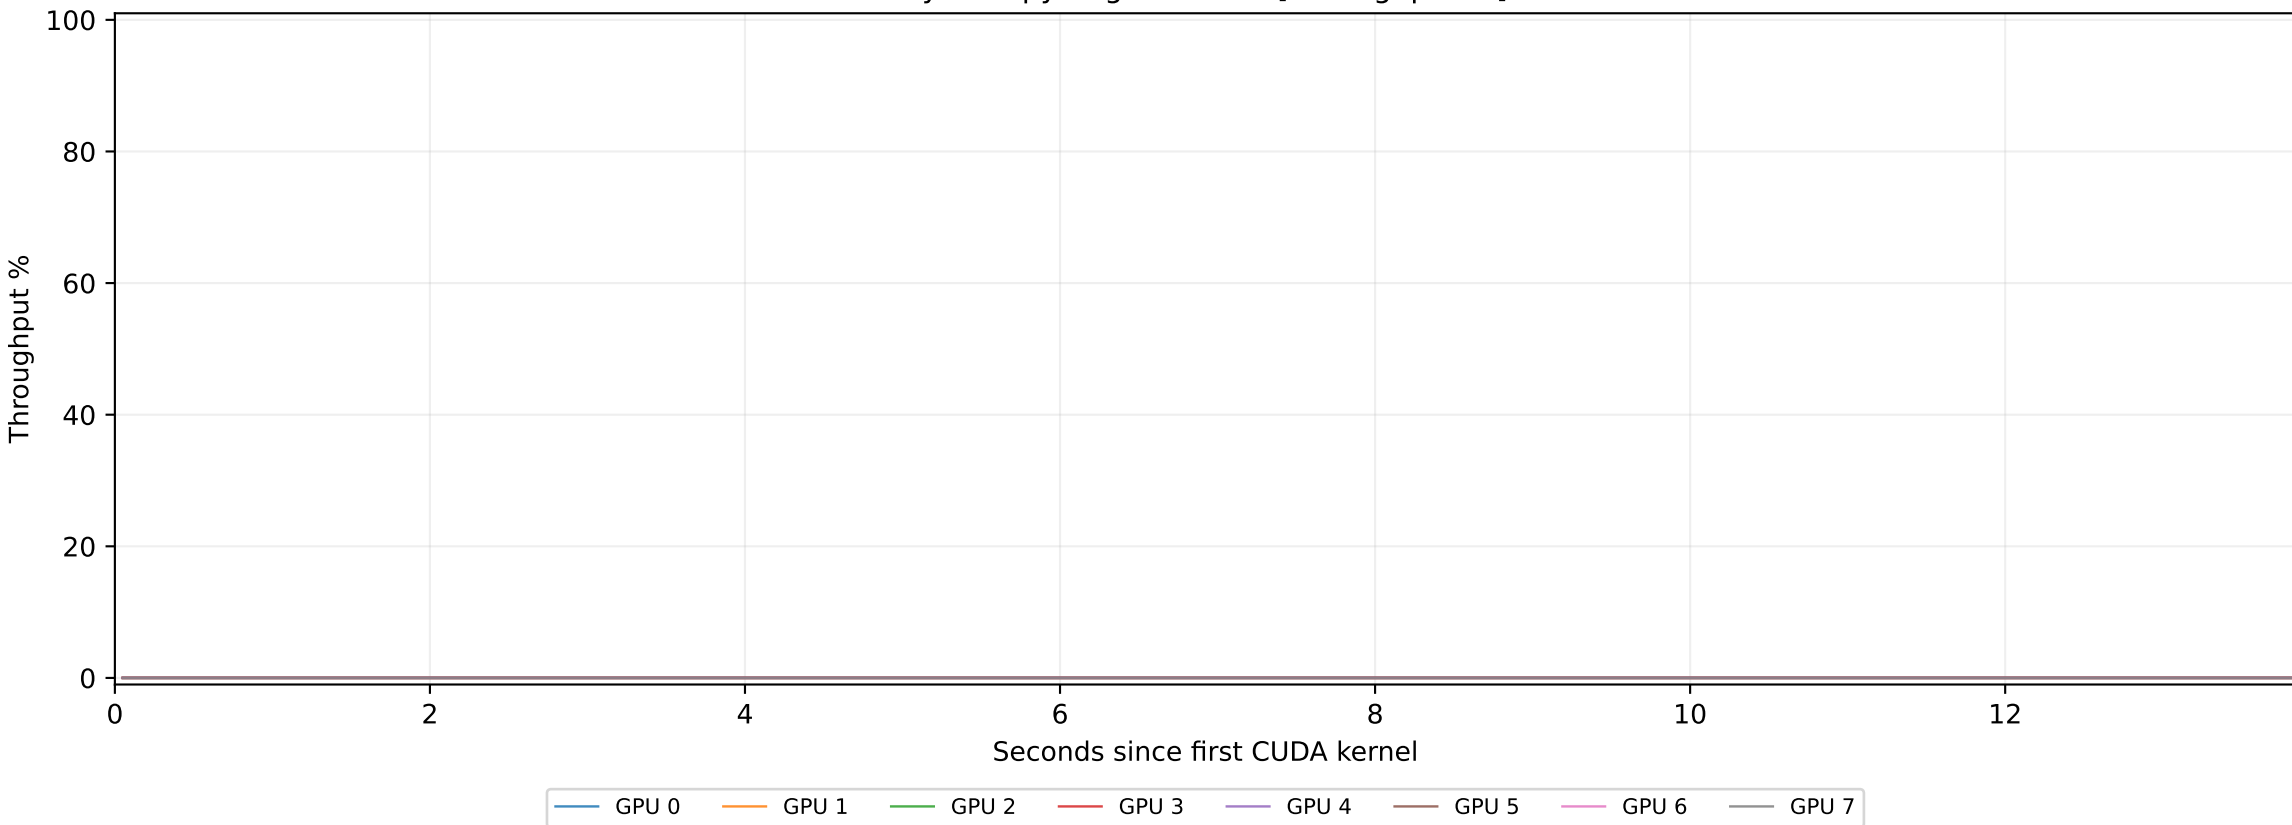

All 8 GPUs; another process remained on GPU 3

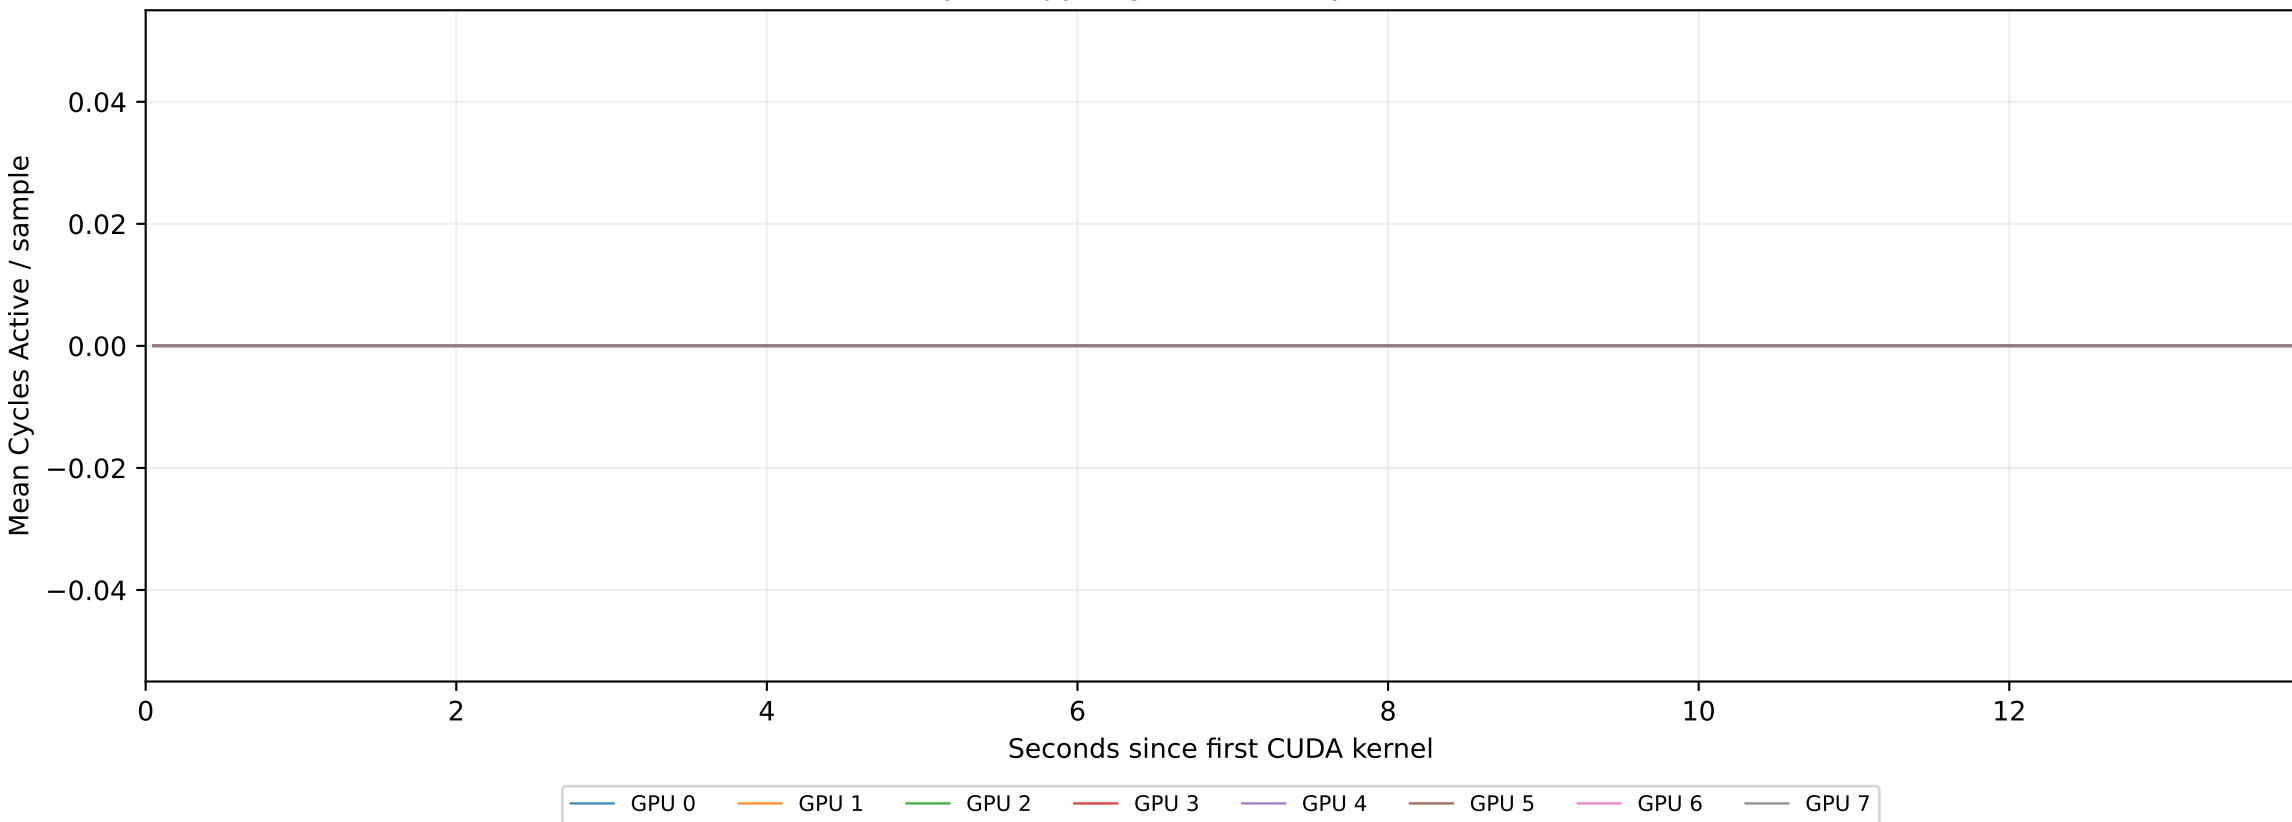

SYS Clock Frequency [MHz]

Sync Copy Engine Active [Throughput %]

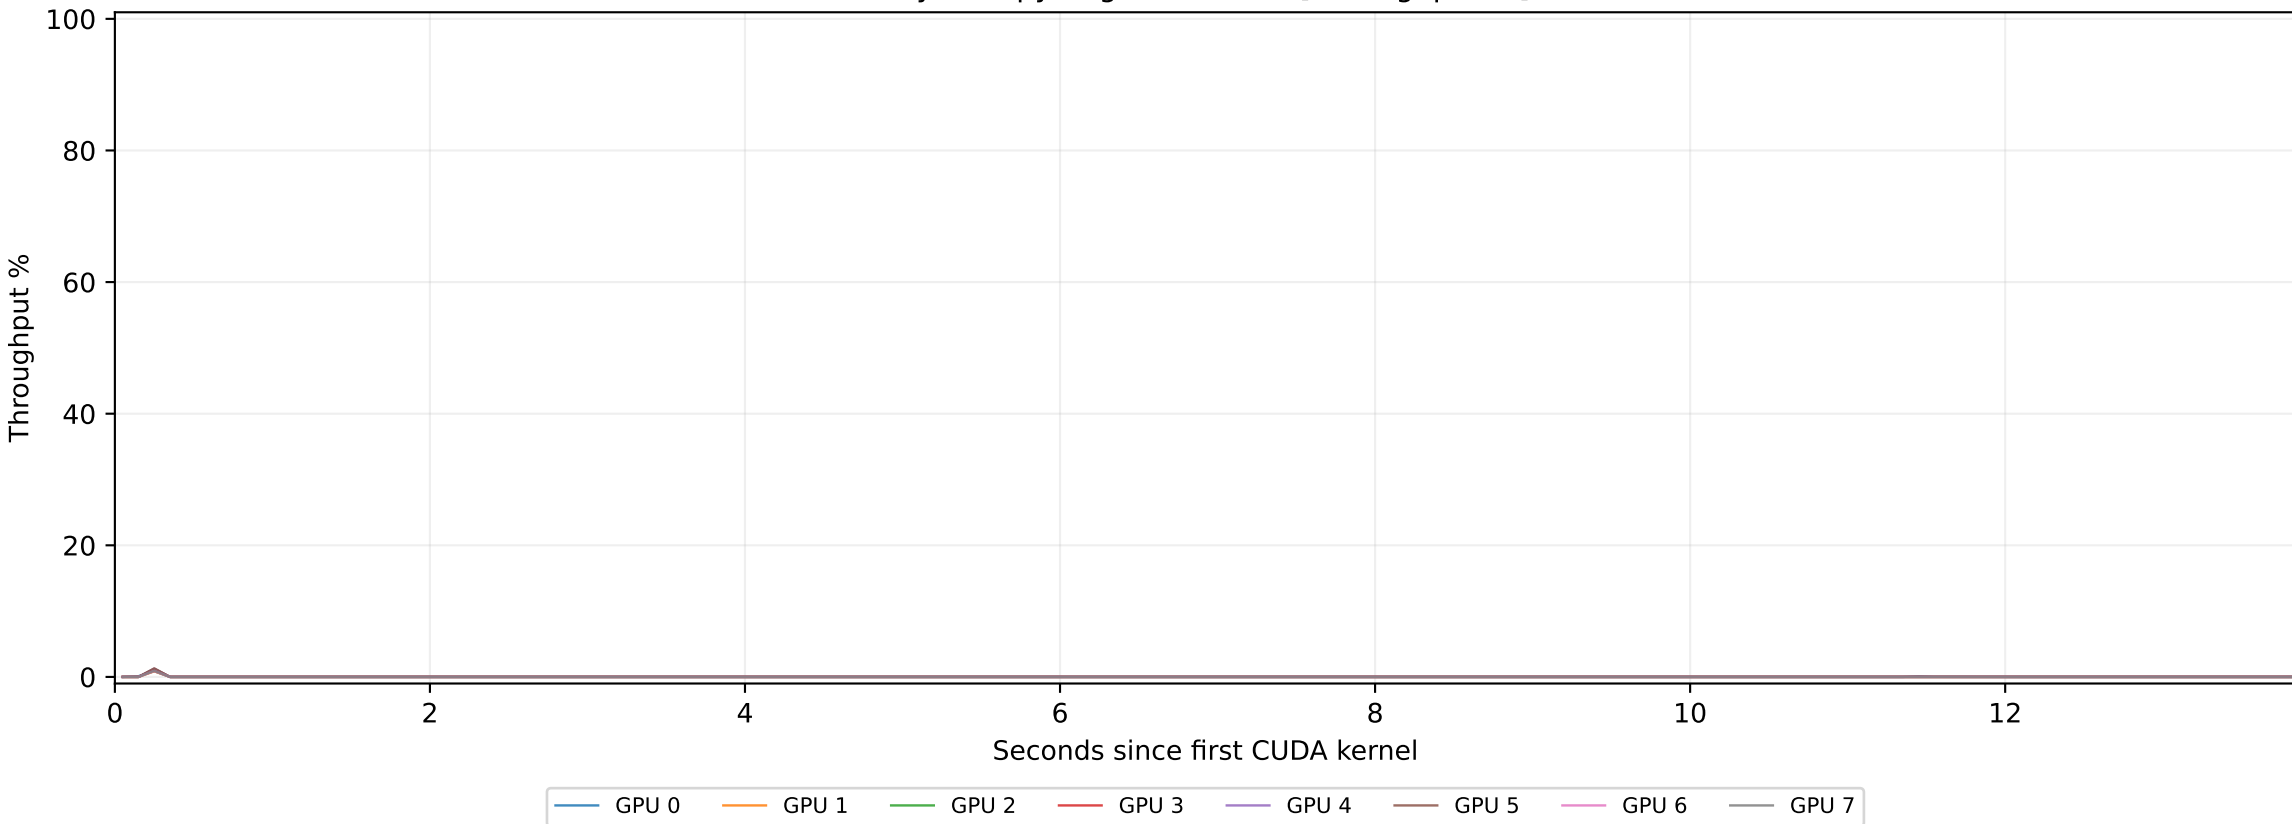

Sync Copy Engine Active [Cycles Active]

H3 full request | hardware metric 5/25 | 1 kHz samples, 100 ms means

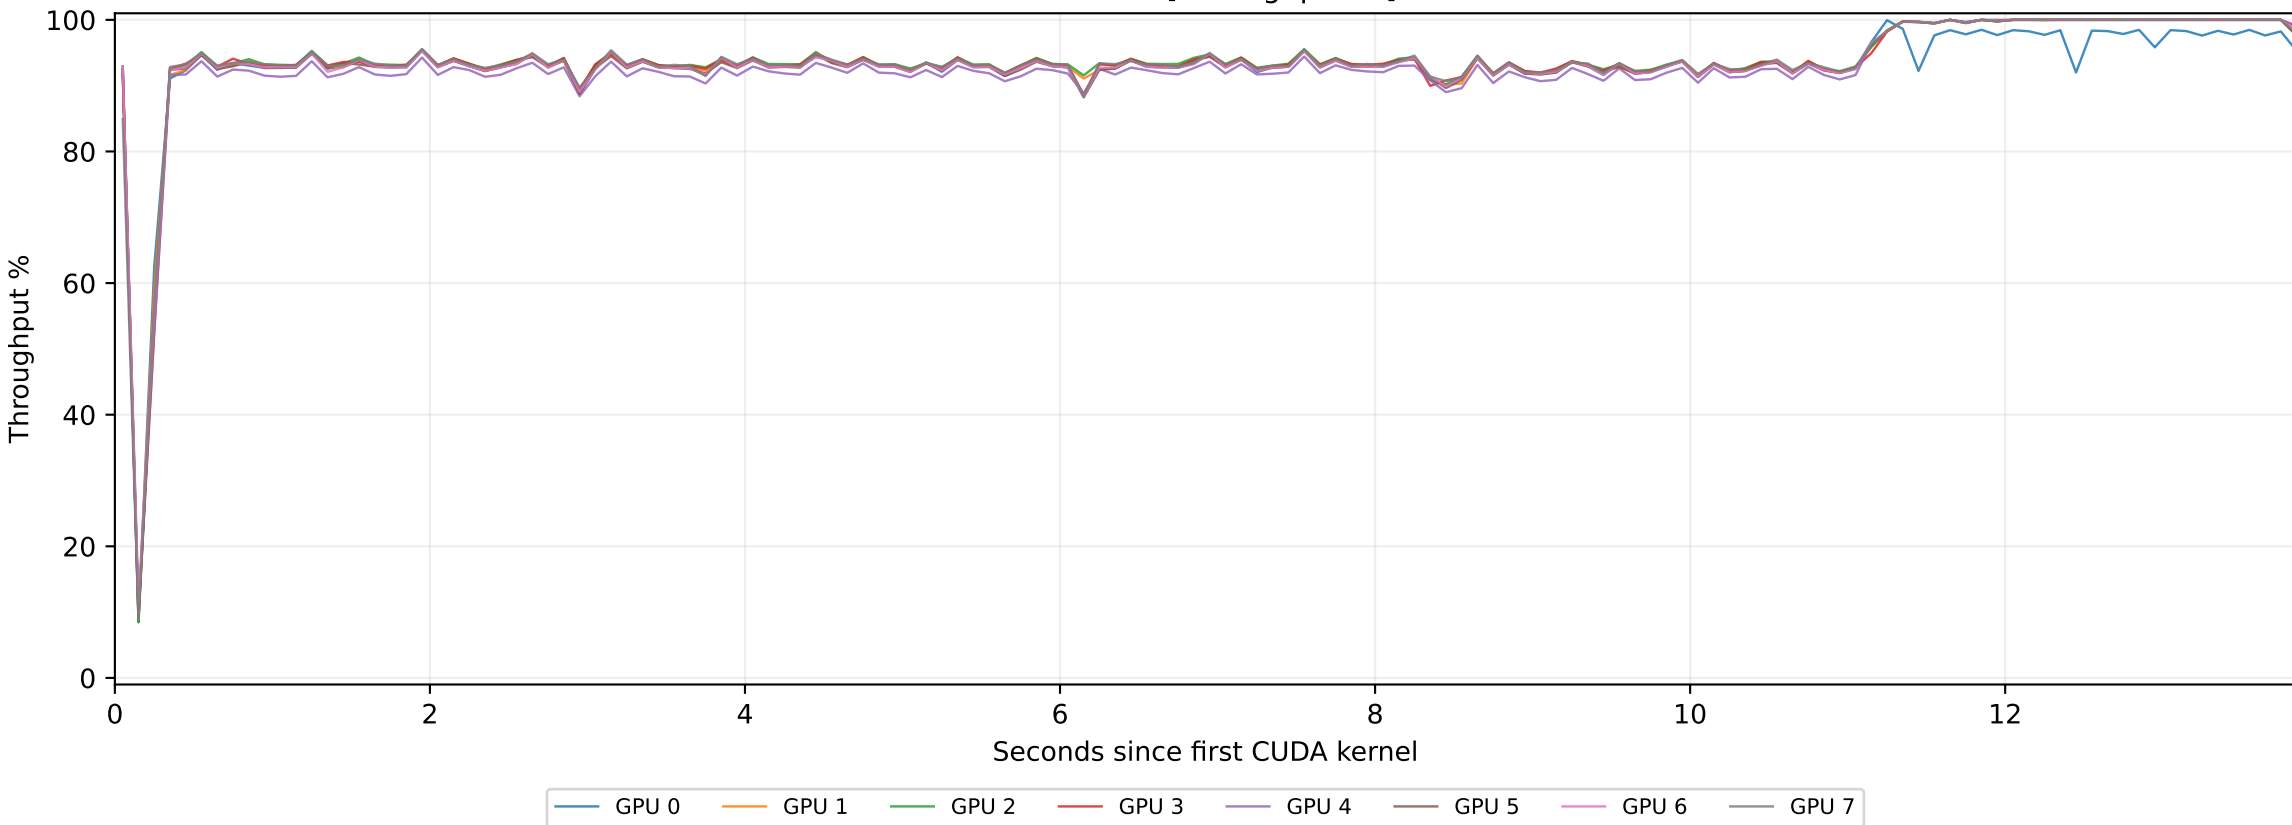

All 8 GPUs; another process remained on GPU 3

Async Copy Engine Active 0 [Throughput %]

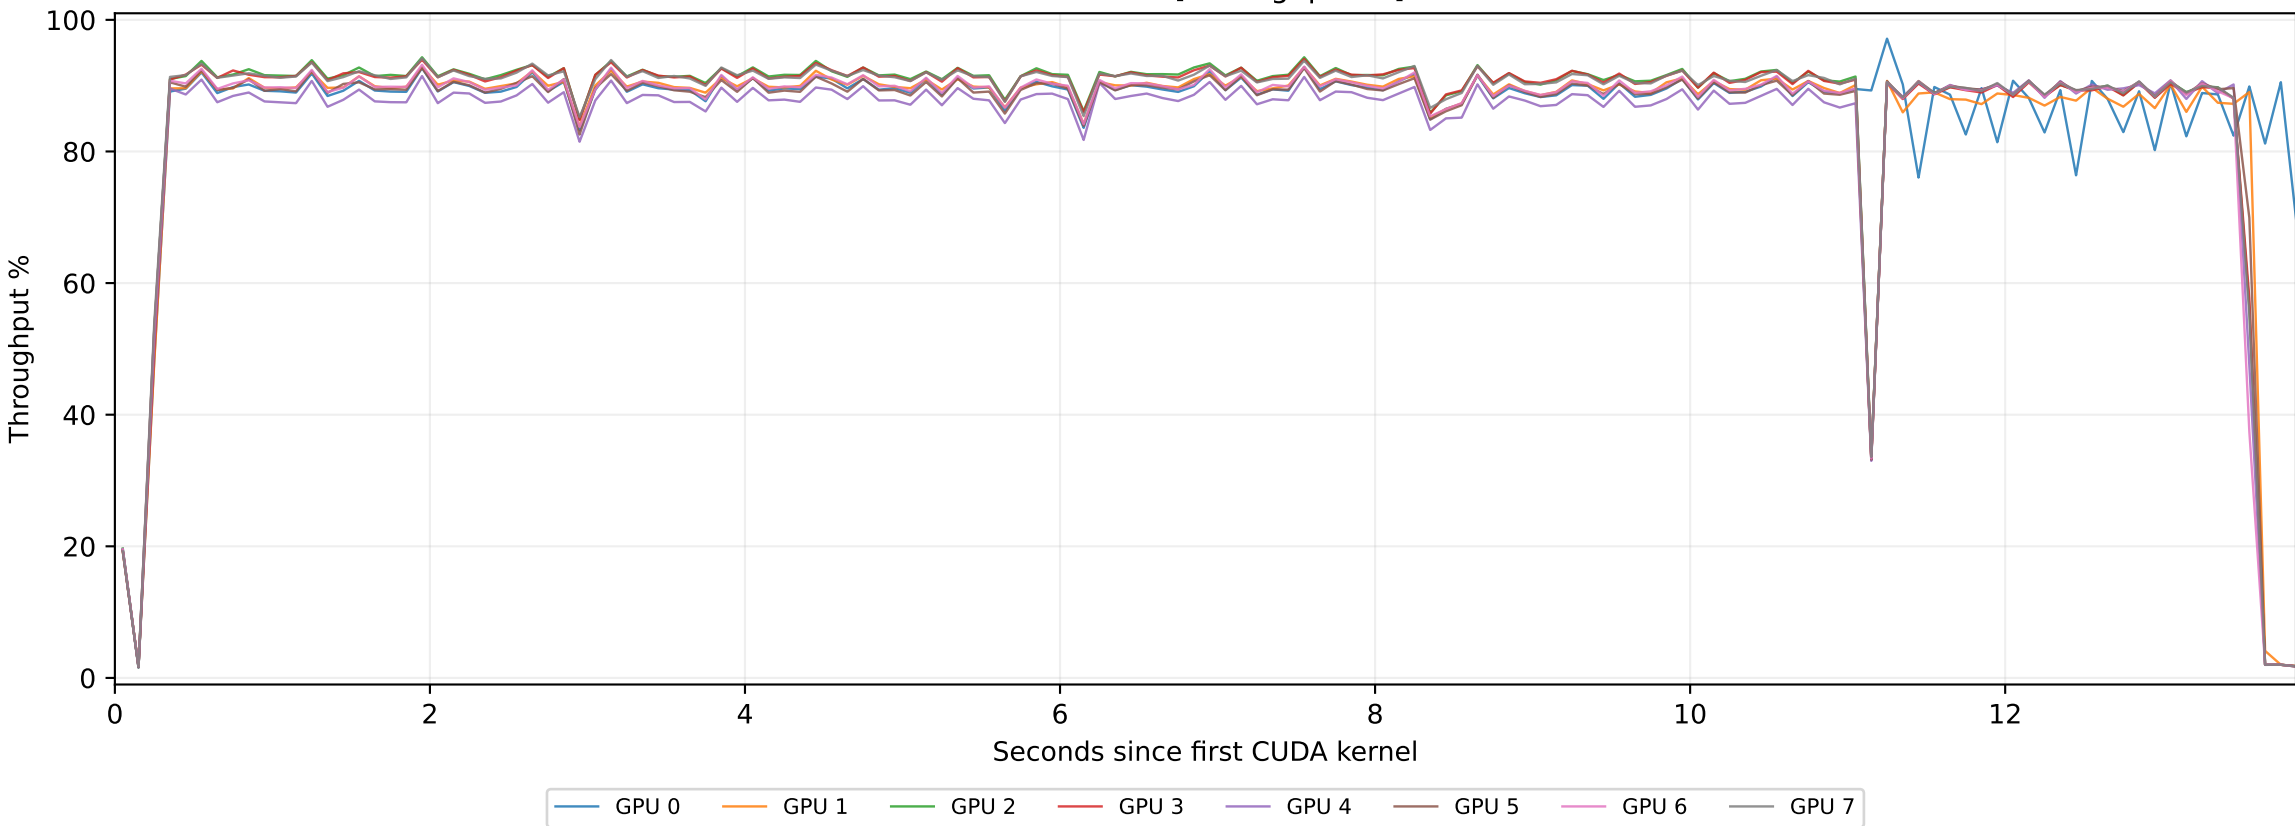

All 8 GPUs; another process remained on GPU 3

GR Active [Throughput %]

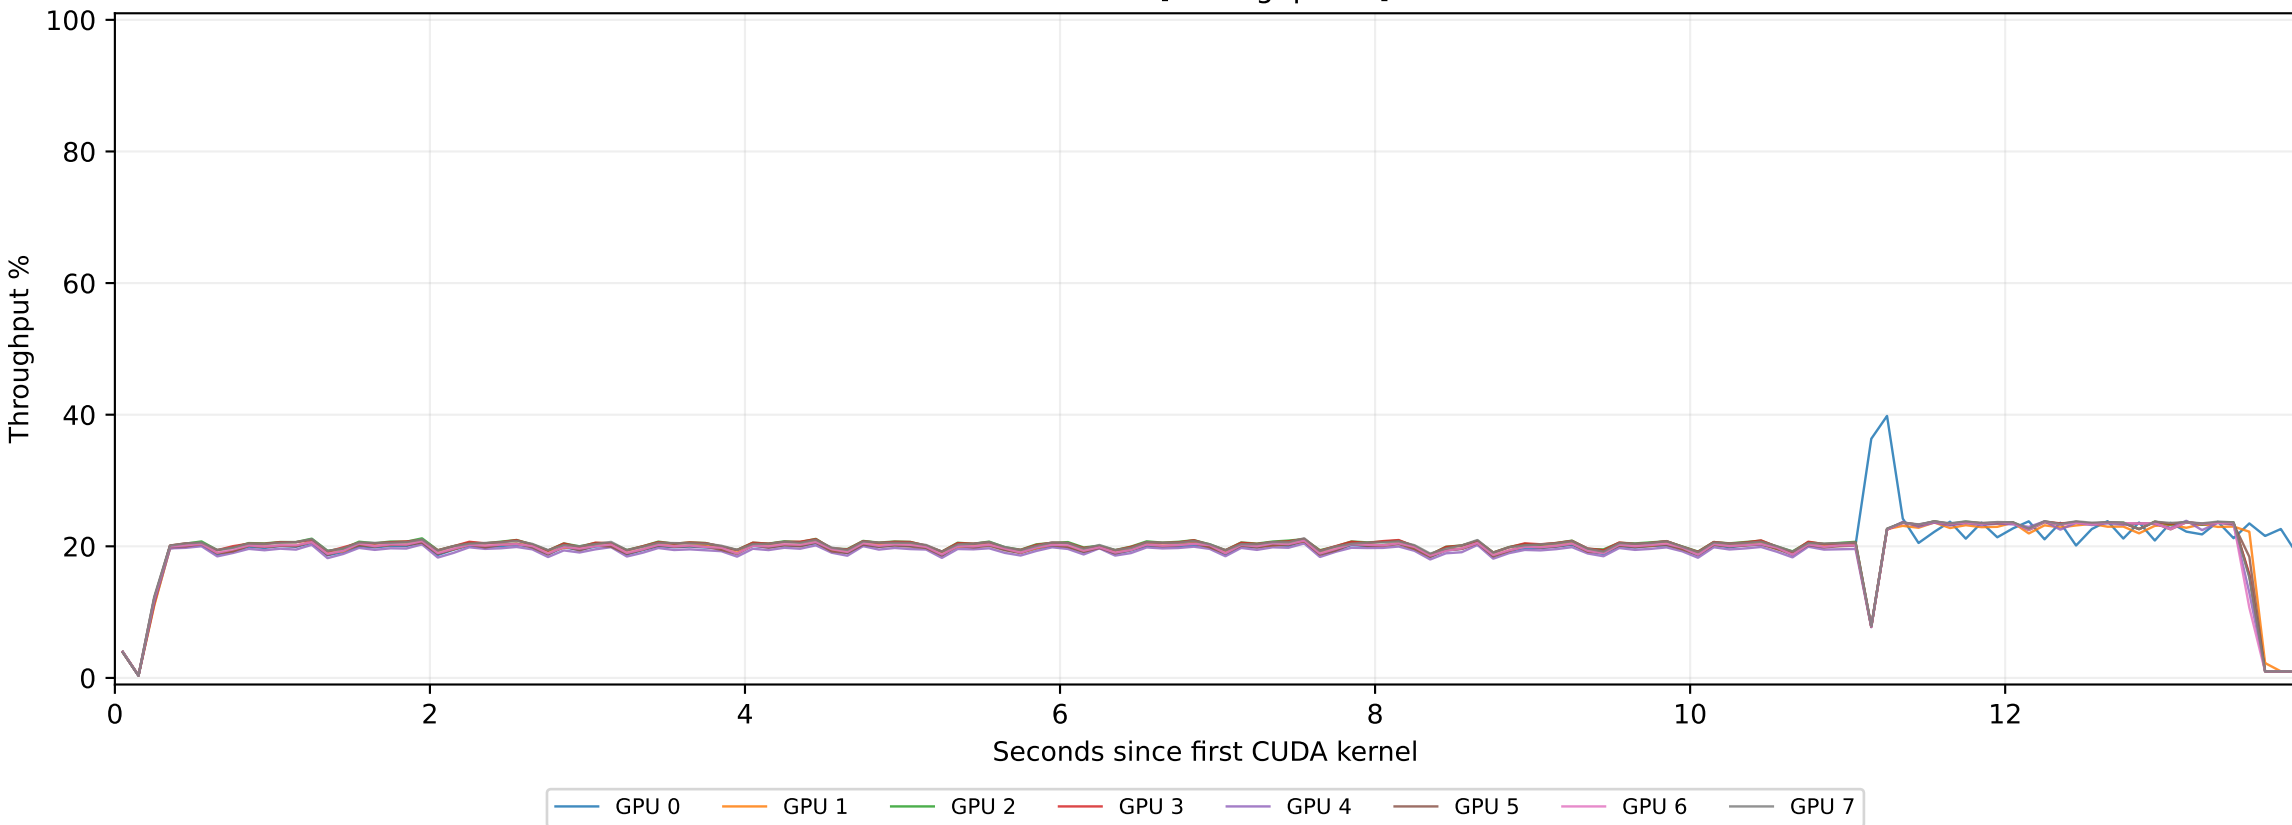

SMs Active [Throughput %]

All 8 GPUs; another process remained on GPU 3

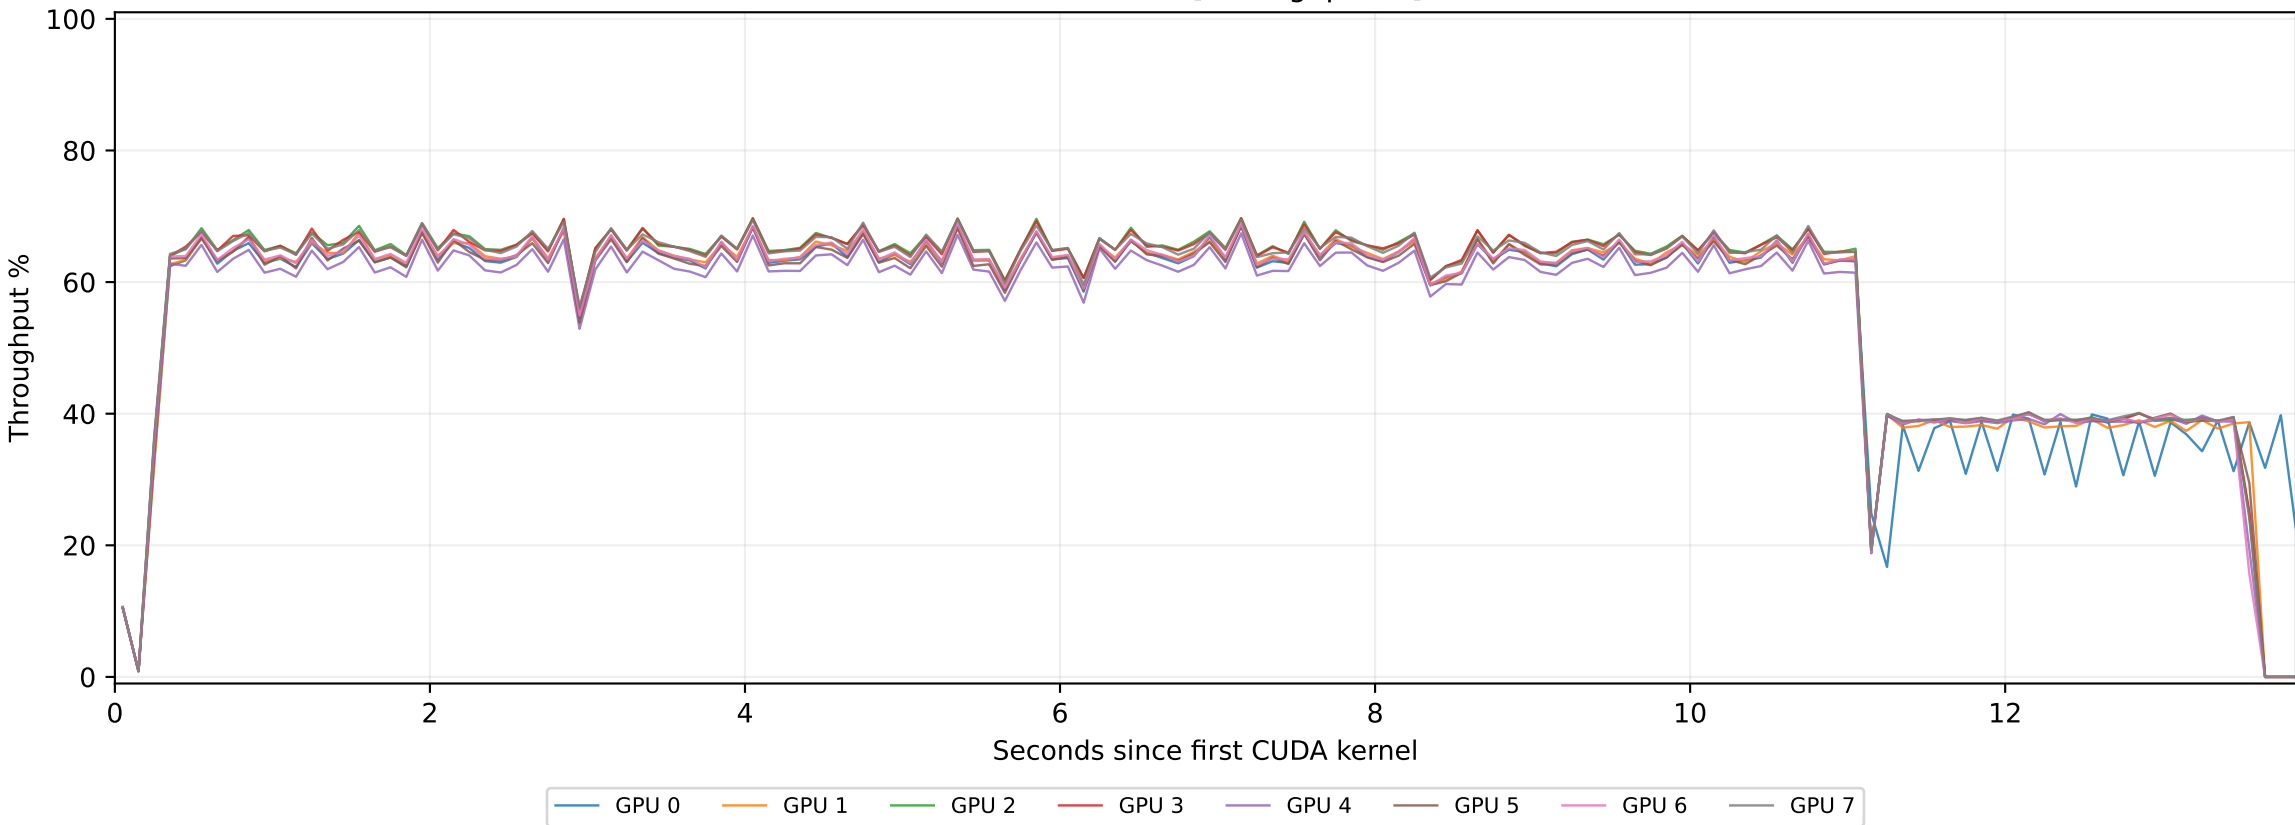

SM Issue [Throughput %]

H3 full request | hardware metric 10/25 | 1 kHz samples, 100 ms means

All 8 GPUs; another process remained on GPU 3

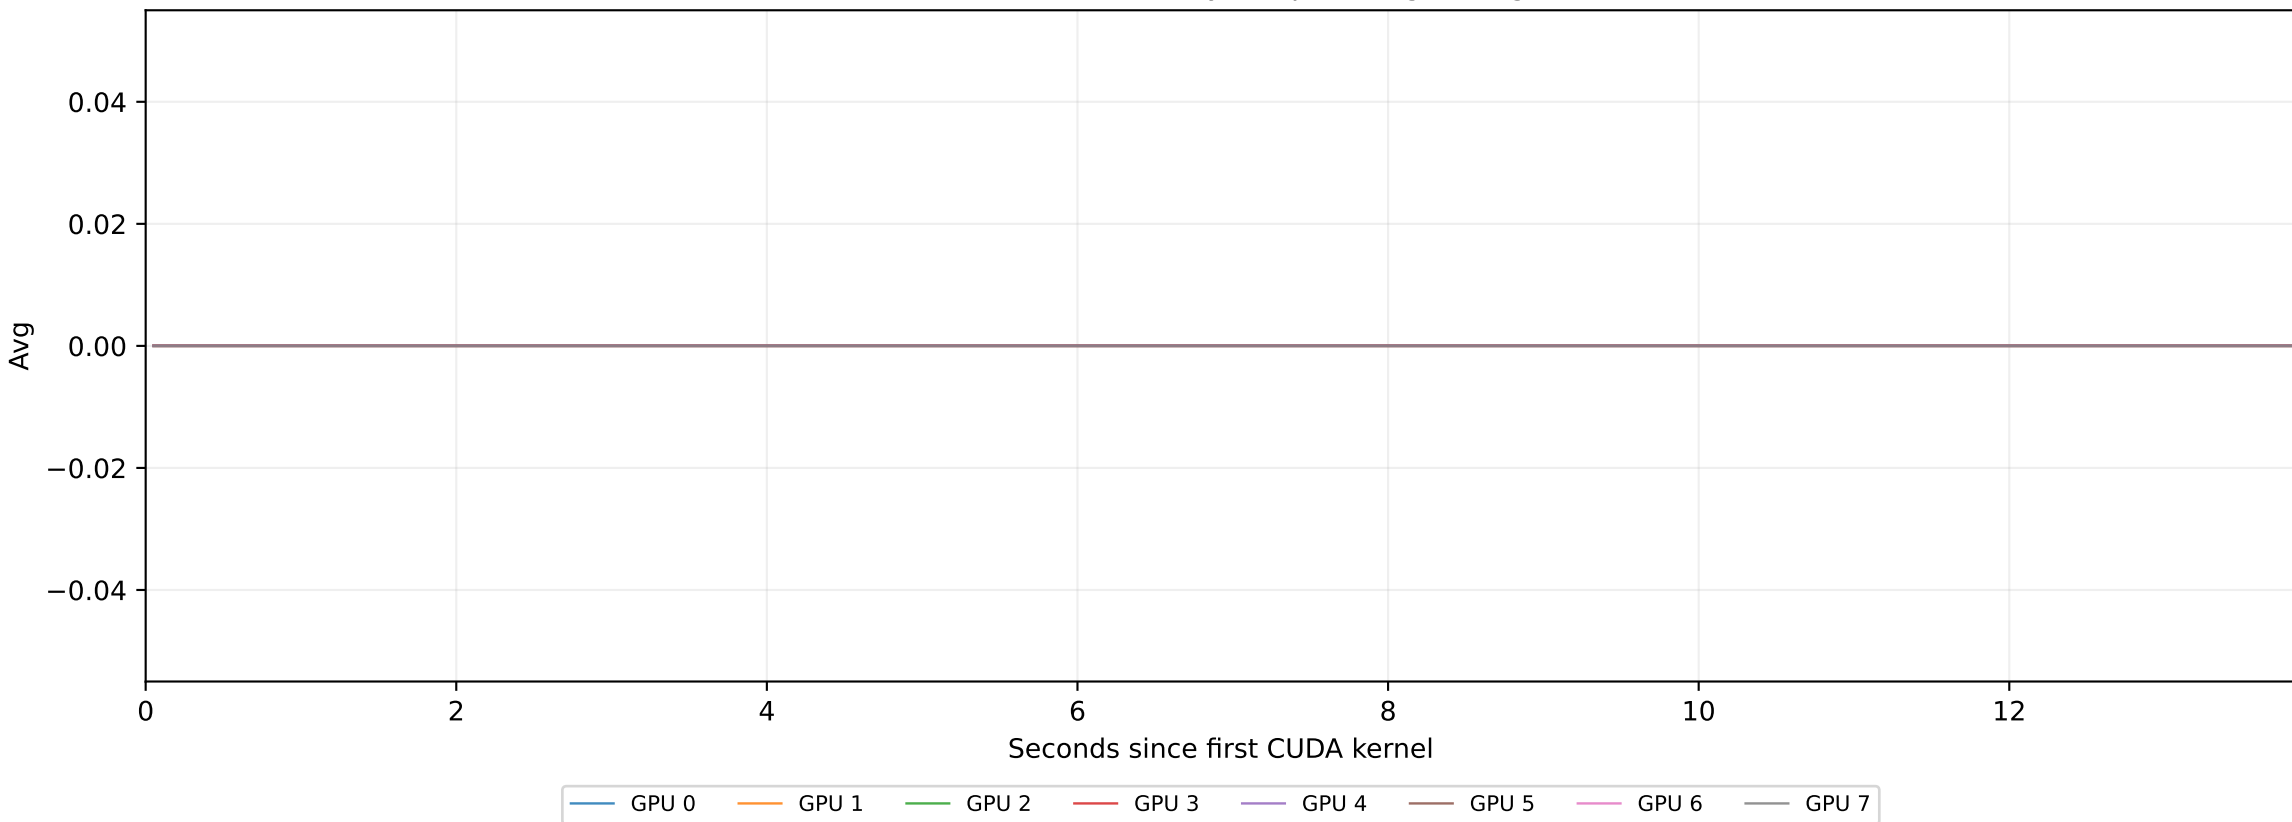

Tensor Active [Throughput %]

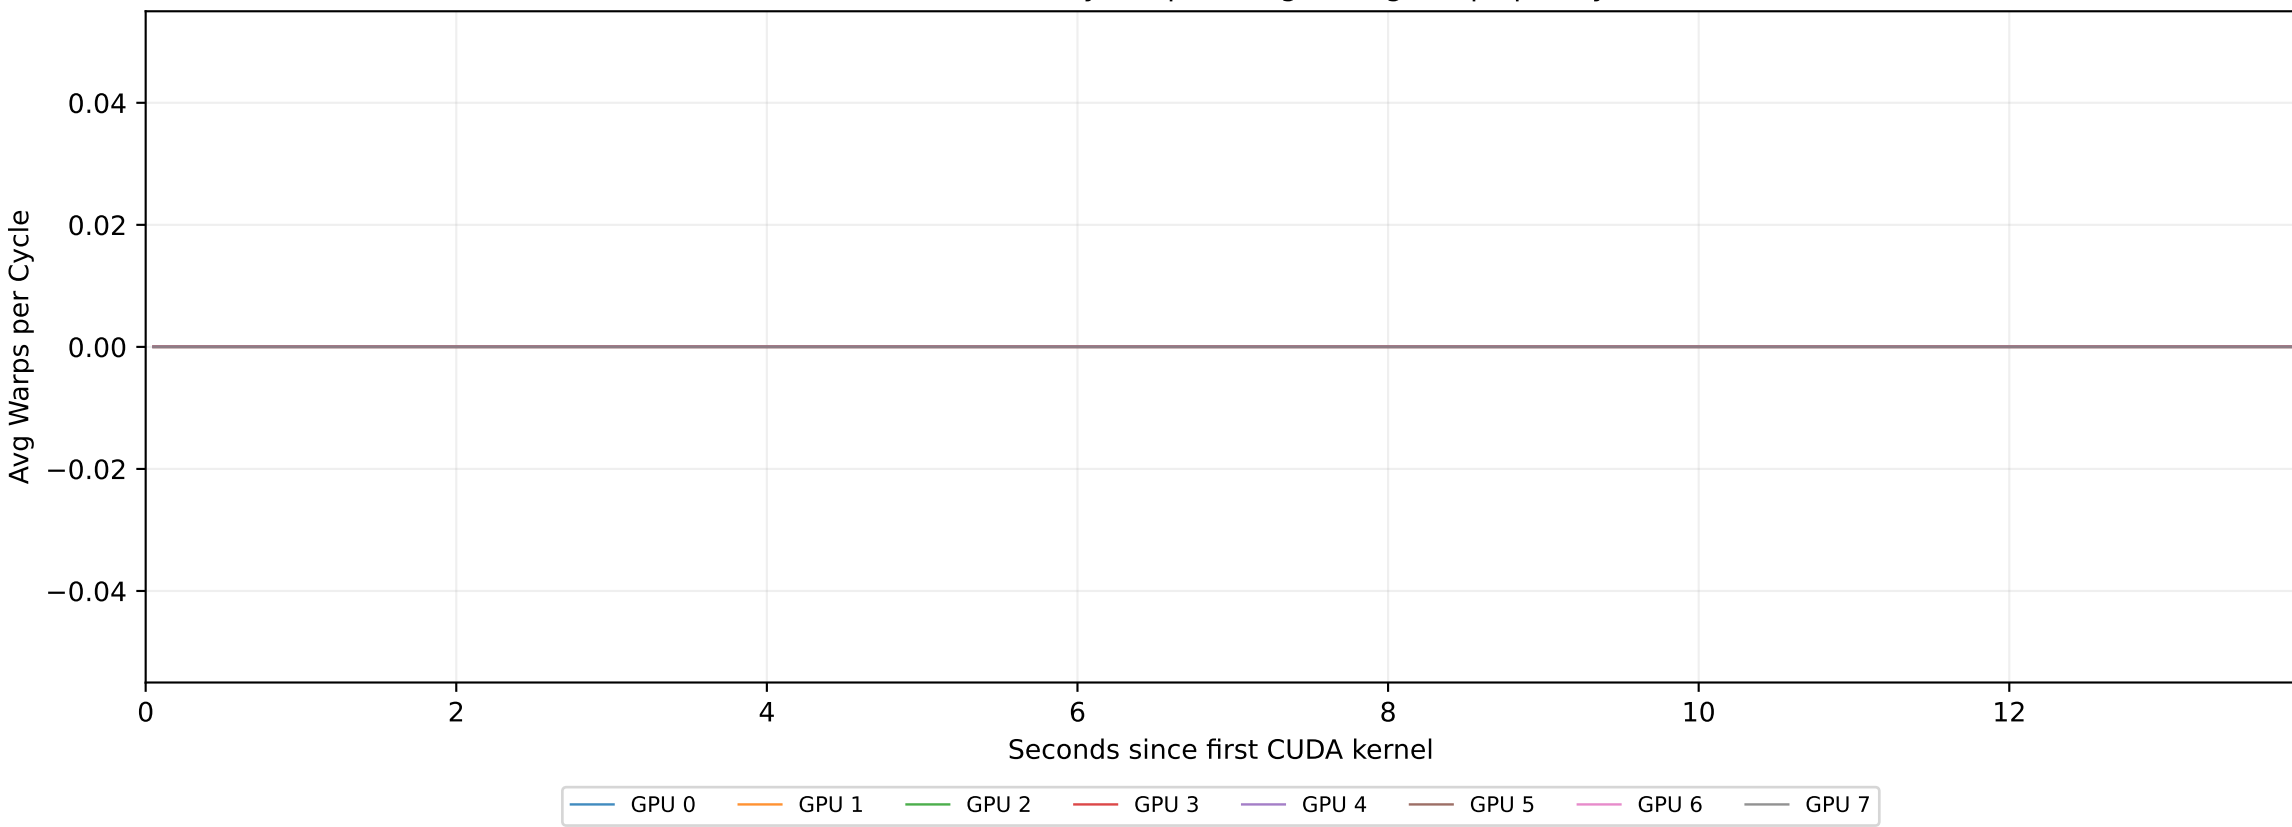

H3 full request | hardware metric 12/25 | 1 kHz samples, 100 ms means

All 8 GPUs; another process remained on GPU 3

Vertex/Tess/Geometry Warps in Flight [Avg]

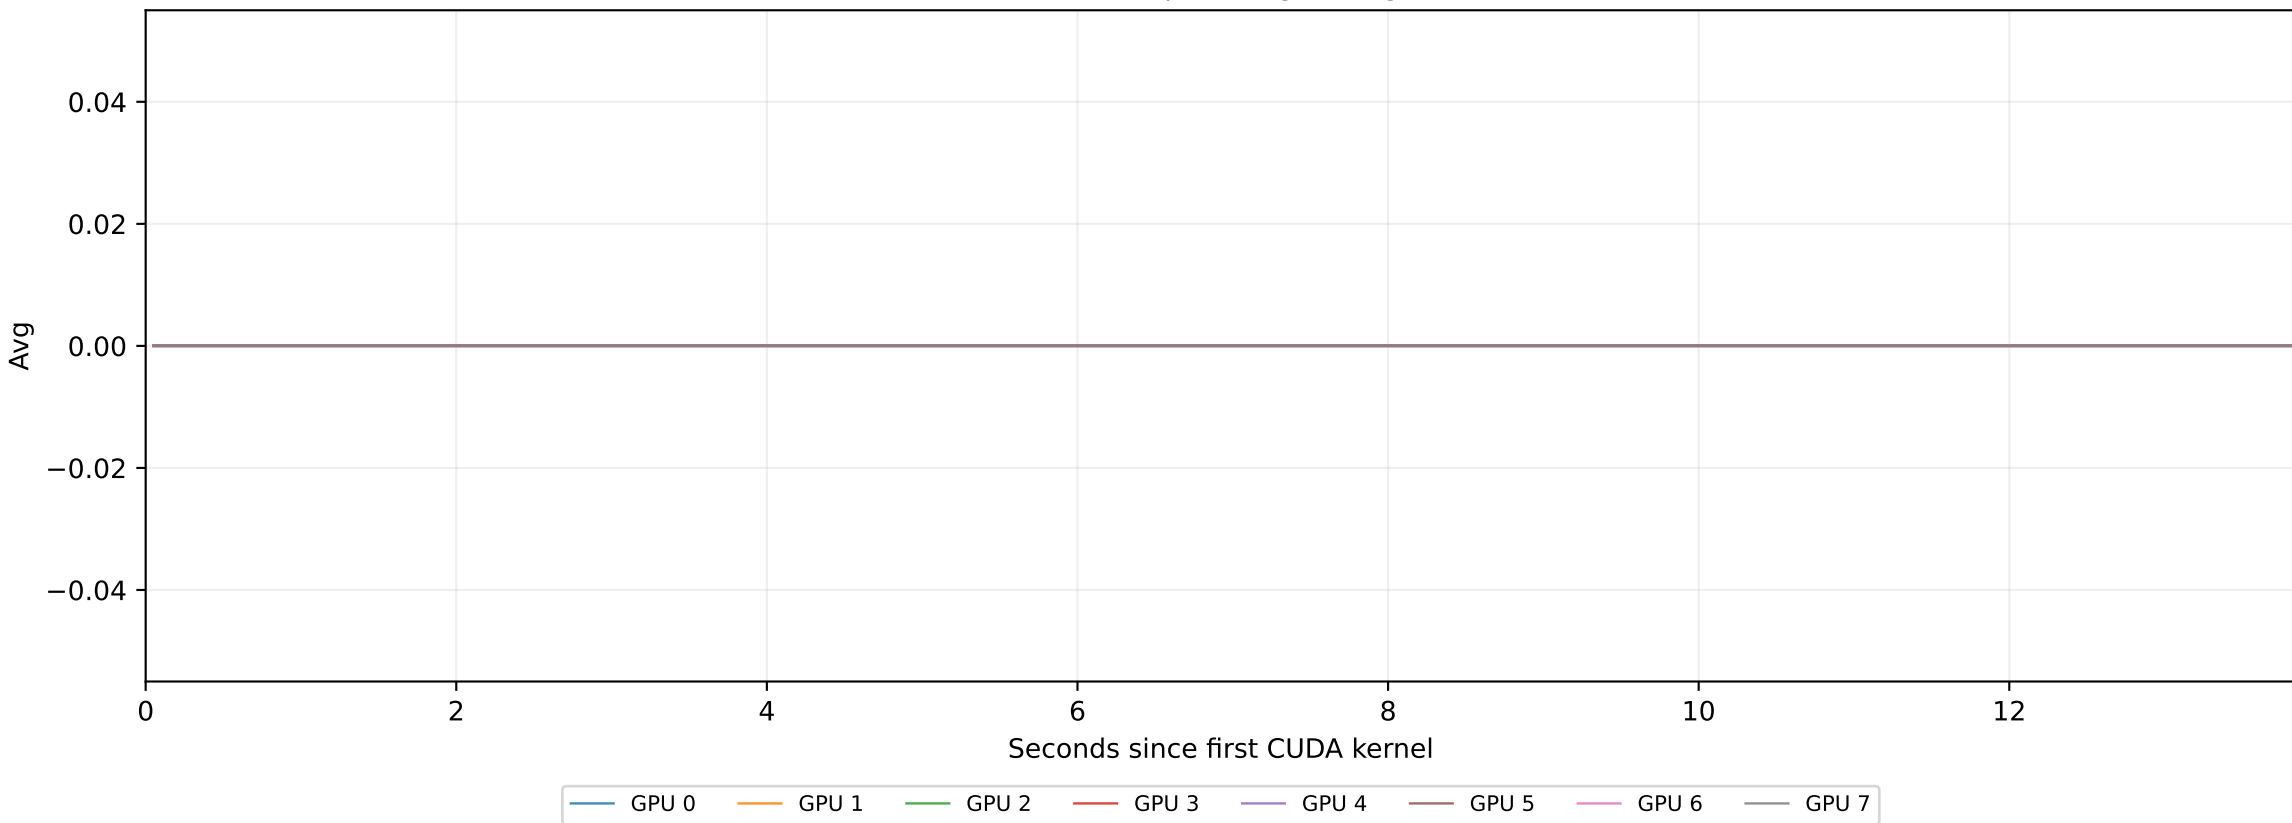

Vertex/Tess/Geometry Warps in Flight [Avg Warps per Frame]

H3 full request | hardware metric 15/25 | 1 kHz samples, 100 ms means

All 8 GPUs; another process remained on GPU 3

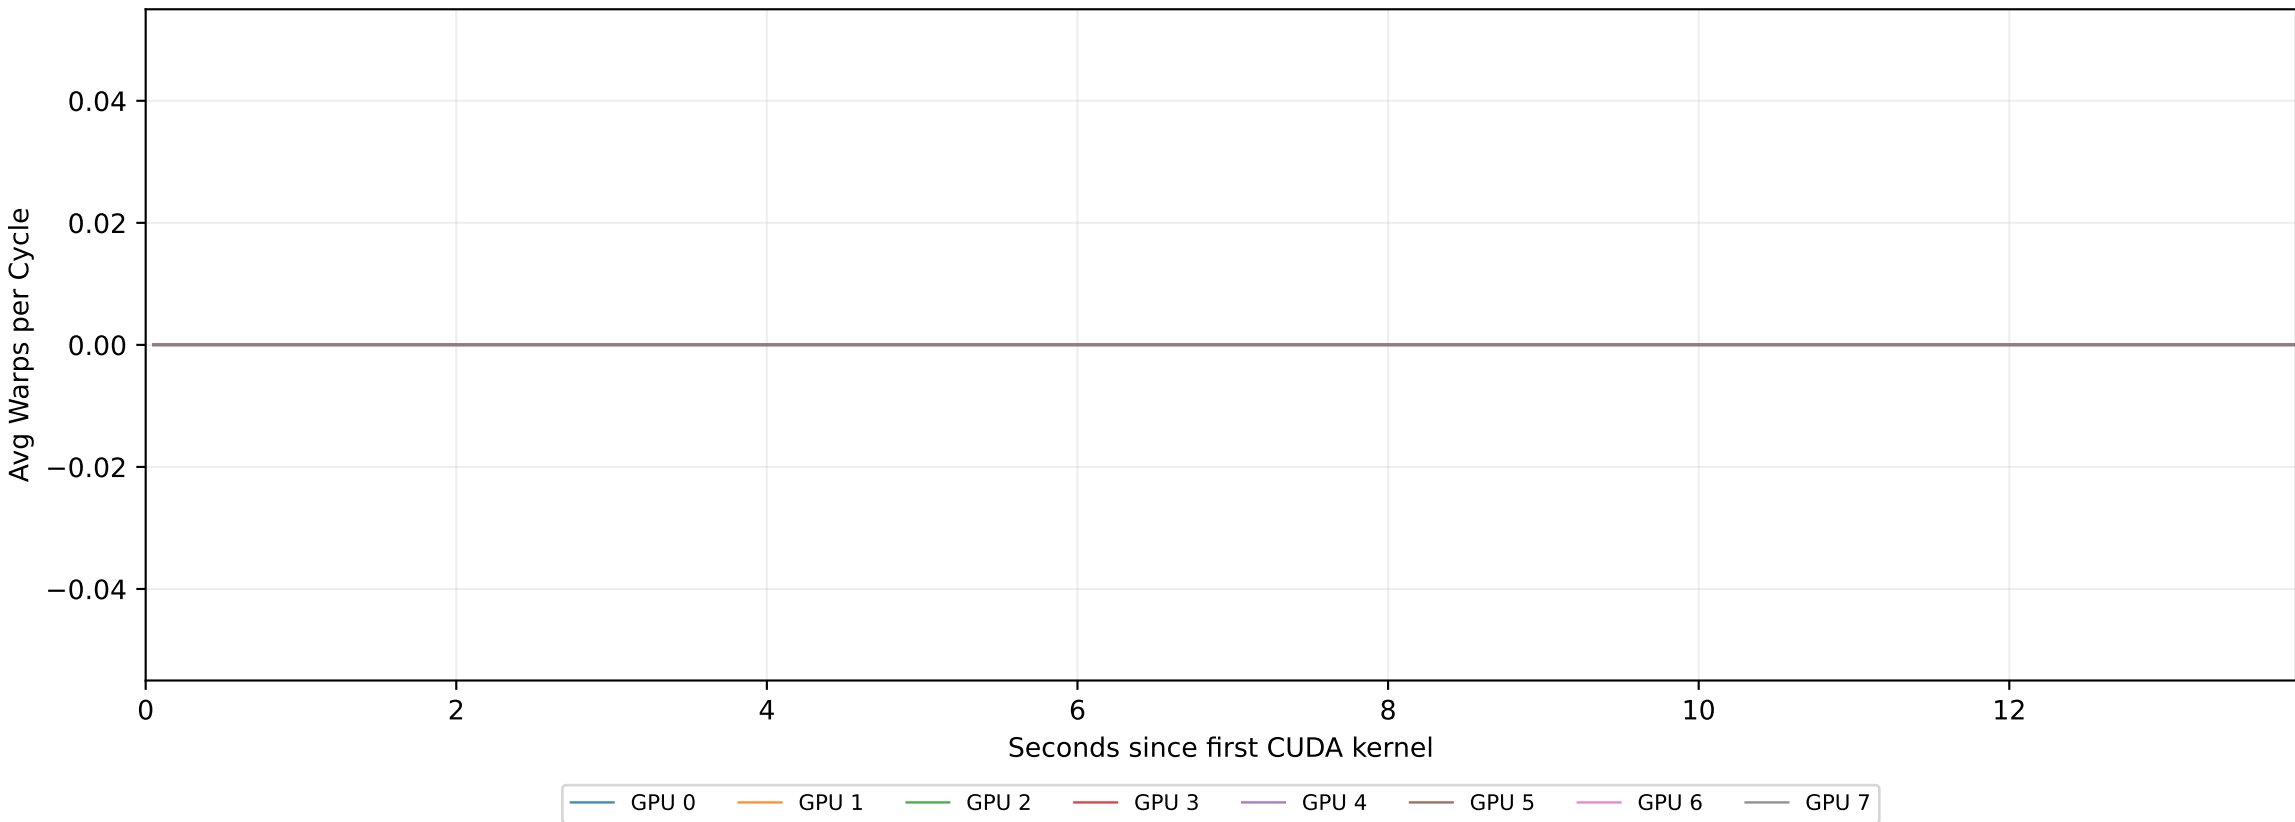

Pixel Warps in Flight [Avg]

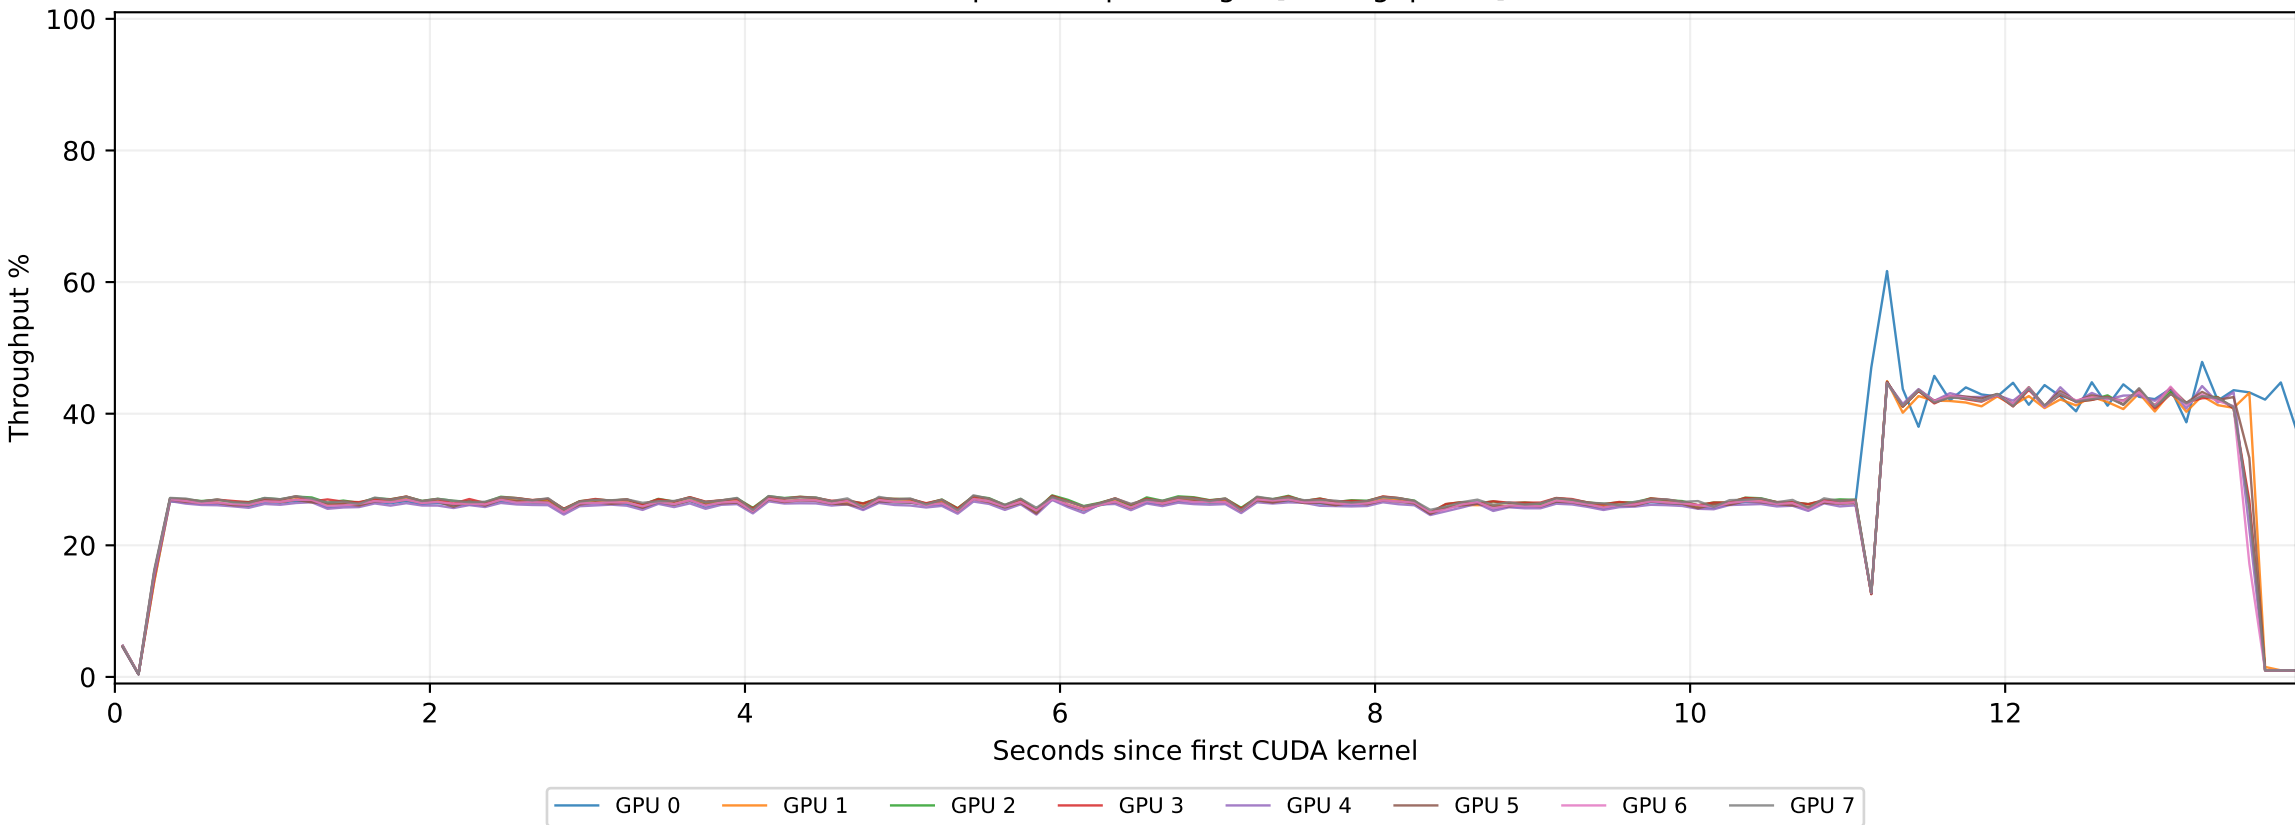

H3 full request | hardware metric 16/25 | 1 kHz samples, 100 ms means

All 8 GPUs; another process remained on GPU 3

Pixel Warps in Flight [Avg Warps per Cycle]

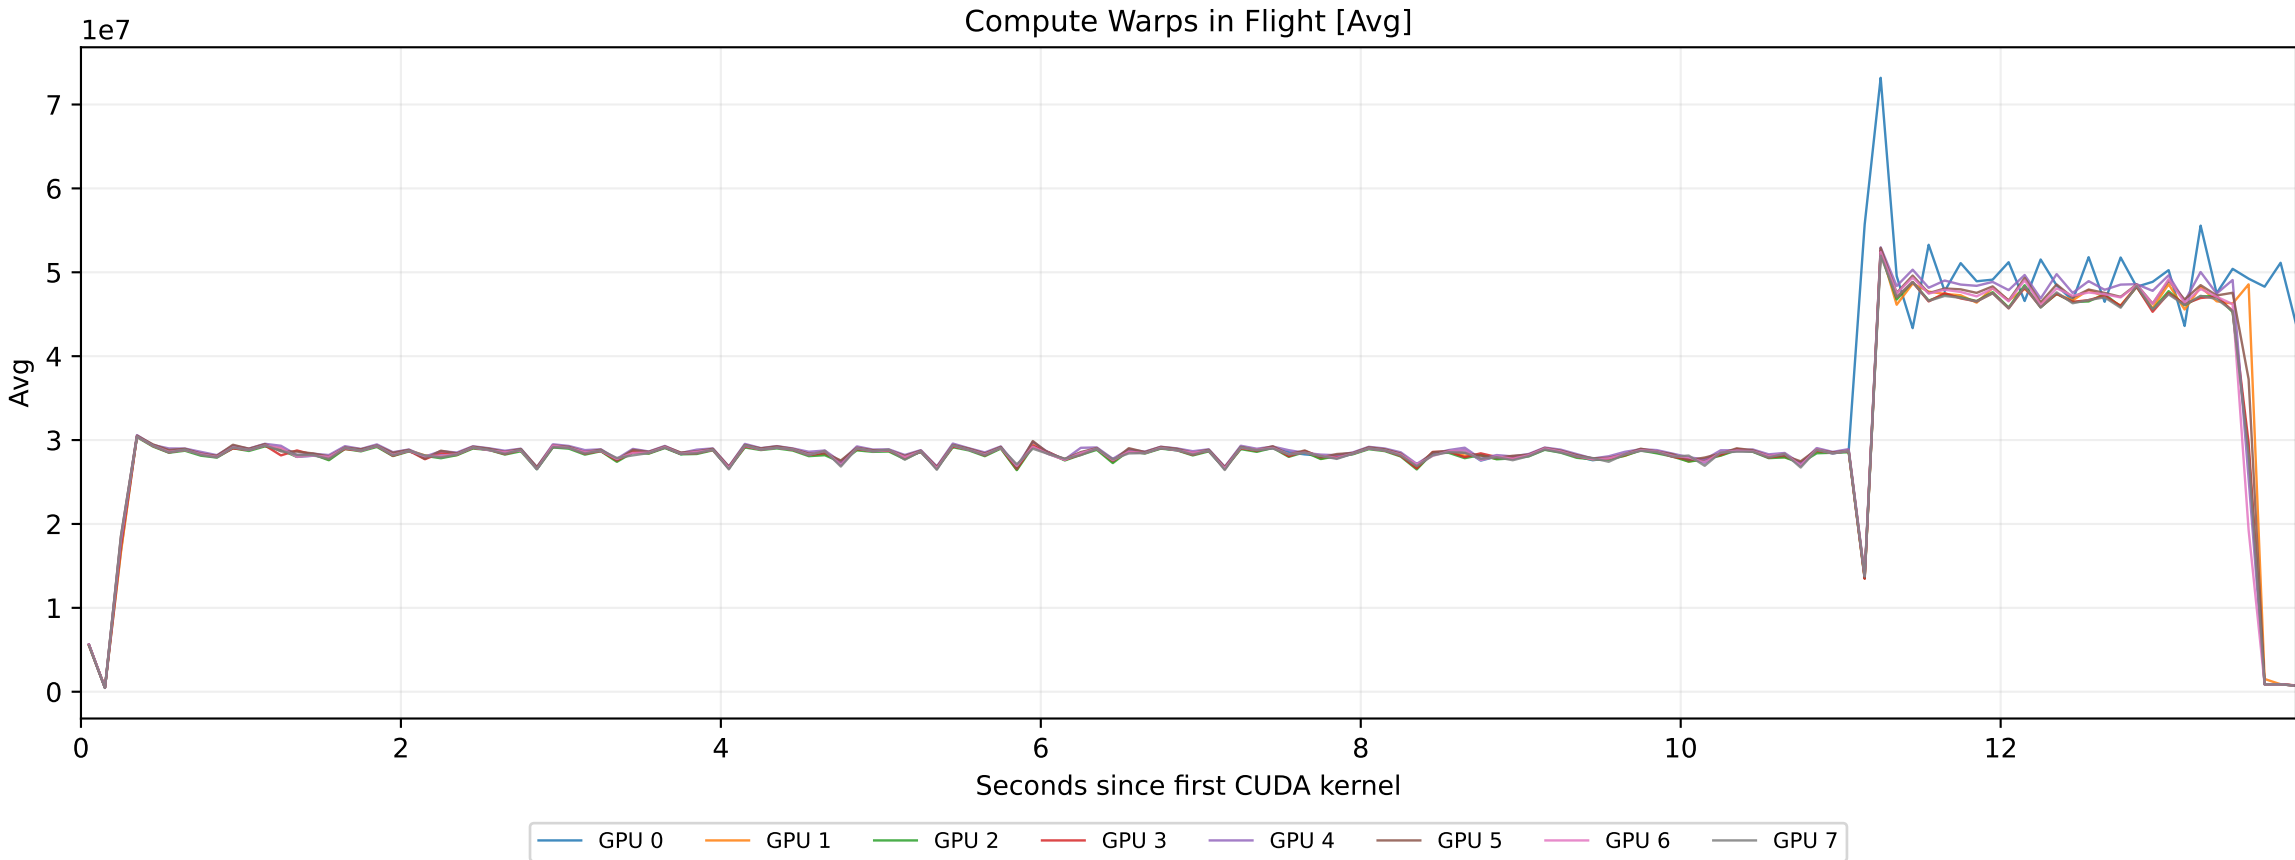

Compute Warps in Flight [Throughput %]

H3 full request | hardware metric 18/25 | 1 kHz samples, 100 ms means

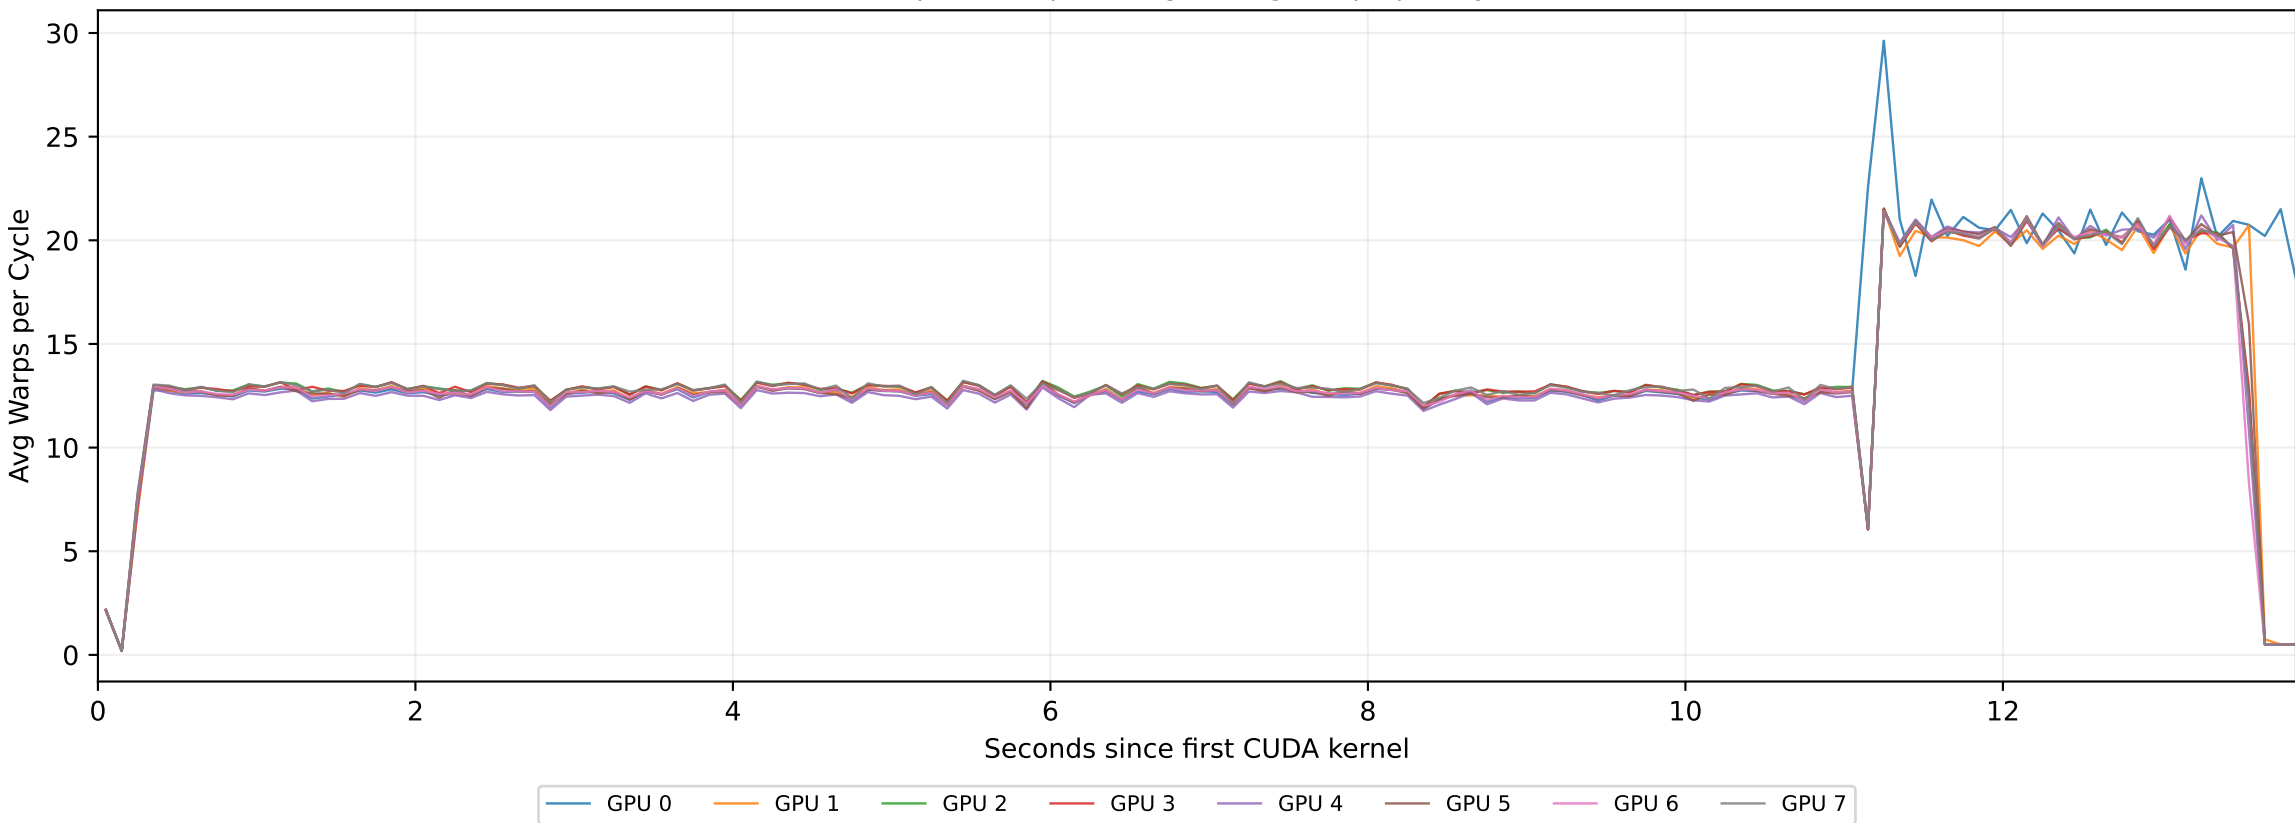

All 8 GPUs; another process remained on GPU 3

H3 full request | hardware metric 19/25 | 1 kHz samples, 100 ms means

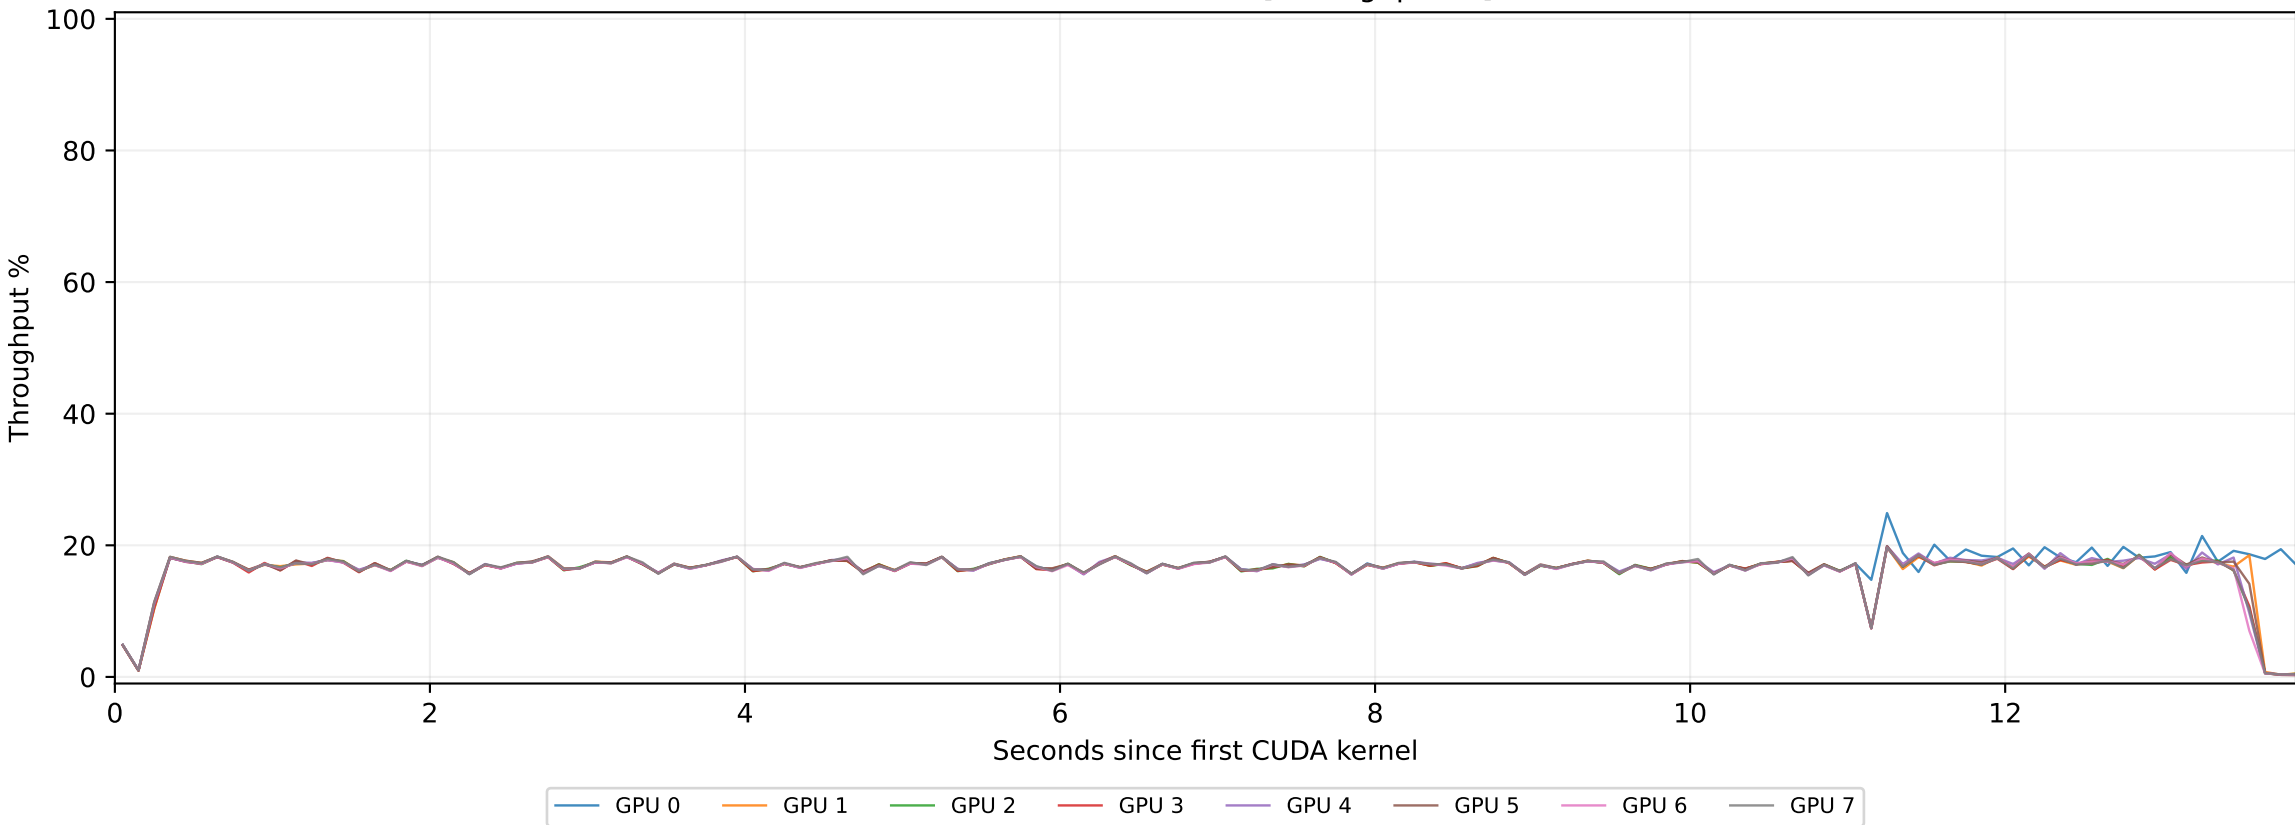

All 8 GPUs; another process remained on GPU 3

Compute Warps in Flight [Avg Warps per Cycle]

All 8 GPUs; another process remained on GPU 3

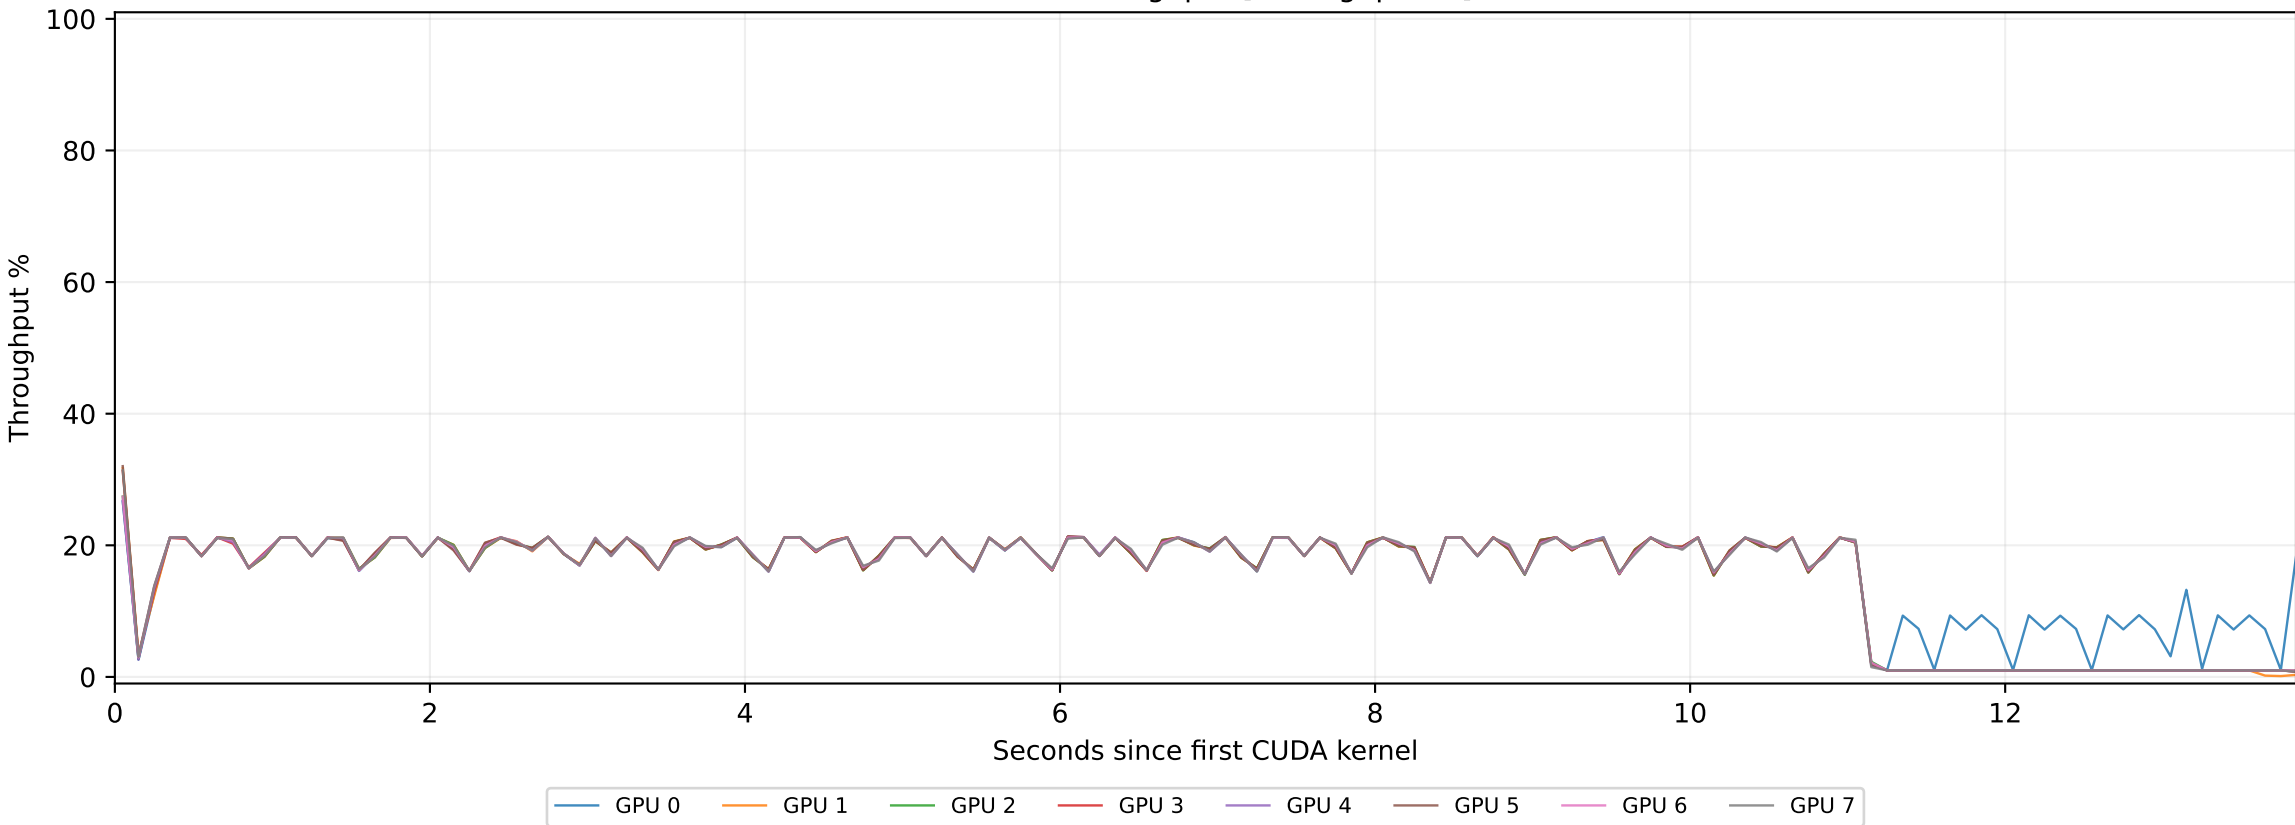

DRAM Read Bandwidth [Throughput %]

H3 full request | hardware metric 22/25 | 1 kHz samples, 100 ms means

All 8 GPUs; another process remained on GPU 3

PCIe RX Throughput [Throughput %]

All 8 GPUs; another process remained on GPU 3

PCIe Read Requests to BAR1 [Requests]

H3 full request | hardware metric 25/25 | 1 kHz samples, 100 ms means

All 8 GPUs; another process remained on GPU 3

PCIe Write Requests to BAR1 [Requests]
